

# Year Group Assembly

## Space

Year 5 had our Year Group Assembly which was all about Space! We enjoyed sharing our learning and our Wider Curriculum homework of making a project to help us learn about Space.

We learnt about the 8 planets and how Pluto is not classified as a planet anymore, as he was downgraded to a Dwarf Planet in 2006. Our Scientist in the Spotlight was Ptolemy. He lived over 1,800 years ago and believed the Earth was at the centre of the universe.
